Fiscal Court Meeting

The Powell Fiscal Court convened at Stanton Monday with all the magistrates and Judge Knox present. The object of the meeting seemed to be to arrive at some plan to effect the sale of the bonds voted in this county April 10th, 1916. These bonds were awarded to Fields, Richards & Co., of Cincinnati, last November, but so far the Company has failed to receive them. Mr. E. H. Fuller, County Treasurer, had been sent to Cincinnati to ascertain if the Company was going to receive them. His report to the Court was to the effect that the Company had failed to get a satisfactory report on the assessment of the county, and that they had been told that a suit was pending that would attack the legality of the bonds, and that one of the county's citizens had come to Cincinnati and advised them of the suit and warned them that they were buying a lawsuit in accepting the bonds. In the face of these conditions the Company had turned down the bonds.

An effort will be made to sell the bonds to other persons. In the meantime work on the road is being held up. Conditions however are just as they have been since November 22nd. Still there is a hope that everything will be untangled in a very short time and the good roads construction work proceed.

P. R. Lilly Killed in Auto Wreck

P. R. Lilly, prominent young business man of Irvine, was killed Friday night in an automobile wreck on the road from Richmond to Irvine.

Mr. Lilly, in company with Al Fred Patrick, had gone to Richmond to attend a meeting of the Elks' Club. On the road home a tree had blown across the road. Mr. Lilly, trying to drive around the tree, got his machine on slanting ground which caused it to skid and turn turtle, resulting in the instant killing of Mr. Lilly and the injury of his companion, Mr. Patrick.

Mr. Lilly, 26 years old, is the only son of Judge W. H. Lilly, of Irvine, who was formerly Representative from this district. He has many relatives in this county who will be grieved to learn of his untimely death.

Movement for Red Cross.

Ten citizens of Clay City have made application for charter for Red Cross society in Powell county, and same will be organized soon as matters can be adjusted. That Clay City is equal to every patriotic test has been fully demonstrated in the past, and the Red Cross project shows that it intends to shoulder every responsibility incumbent upon loyal Americans, and do so in full keeping with the ability of its citizens.

To Build School House.

The Powell County Board of Education will build a new school house at Snow Creek. They are advertising this week for bids on the new building. See "Notice to Contractors" in this issue of The Times.

The Fourth in Clay City.

Notwithstanding the fact that many of our citizens motored to Lexington and Winchester to attend big celebrations at these places, the nation's birthday was very fittingly observed in Clay City. In most instances all business houses were closed.

In the afternoon a goodly number gathered at the school house where they heard one of the best addresses going the rounds of the country. It was delivered by Prof. Robt. F. Spence, of Berea, now doing county agent work in five counties. He is indeed a very plausible and entertaining speaker. His remarks made a serious impression upon his hearers.

Remarks were also made by the Rev. G. W. Kerstetter, Miss Harriet Searles and County Agent H. H. Harrison. Miss Searles made an earnest plea for Powell county's undivided support of the Red Cross.

After the addresses and the singing of patriotic songs, the Stars and Stripes were hoisted to the breeze by the Boy Scouts with impressive ceremonies.

The success of the occasion and the occasion itself, were due altogether to the good work of the Civic League, which is destined to do great things for Clay City. Prof. Spence demonstrated an interest in its work by increasing its working capital to the extent of five dollars.

Republican Candidates.

Before the date registration for county offices in the primary closed July 4th, the following Republican candidates registered for places on the primary ballot:

County Judge—T. C. Hall.
Sheriff—Jas. G. Rogers, W. A. Garrett.
County Attorney—A. T. Stewart.
County Clerk—H. H. Pherigo.
Assessor—T. J. Wright.
Jailor—Jesse Crow.
Supt. of Schools—Guy Crowe, Dudley Caudill.

All of the candidates without opposition will be the nominees. There will be races only for School Superintendent and Sheriff. The candidates are all nice men and would make good officials. The Times has but one regret, and that is that they are not all Democrats.

To Breathitt County.

County Engineer Blair Hughes has been sent to Breathitt county to assist in engineering some of the roads to be built there. His family will remain here, as Mr. Hughes expects to return to Powell when work is resumed on our roads which is hoped to be done in about two weeks. At any rate Mr. Hughes is a fine engineer, a good citizen and a man wholly acceptable to the people of Powell county in building our roads.

School to Begin

The Waltersville school will begin Monday, July 9th, with Prof. C. E. Smith principal and Mrs. Myrtle Burgher assistant.

Most all of the country schools of the county will begin on that date.

New Depot for Clay City.

It is with pleasure we learn that Clay City is to have a handsome new depot to cost \$7,584.00. This information is given us from an authentic source, and will be welcome news to the traveling public. The new depot will be modern in every way, with toilet and such accessories as are necessary to make it a source of convenience.

The L. & N. railroad will accept the thanks of every citizen of Clay City and adjacent territory for this recognition of their rights and convenience. It makes us all friends to the L. & N. and convinces us that the road is willing to do the fair thing for fair people. And this is the kind of people that inhabit Clay City, the management of the road has found it out, hence they are willing to give us what they know we deserve.

Oil Tax Levied

At its meeting Saturday the Powell Fiscal Court levied a tax of one-half of one per cent of the market value of all the oil produced in the county, the same to go into the general fund. The Times did hope to see this go to the road fund so the county could draw a like amount from State Aid. This tax was made possible by the enactment of the McGlone bill at the special term of the Legislature last winter. Powell is the first county in the State to make such levy, and did not suffer the loss of a single day's tax in making it, as Saturday was the end of the fiscal year. The law took effect July 1st, and our court was equal to the occasion by levying the tax in time so that the new tax would begin accruing the very first day possible.

Blackberries Late.

Sunday was the first day of July, and it was the first beginning day of this month the writer ever remembers seeing, without being able to have a new blackberry pie, but this year we were unable to get hold of any ripe ones. They are fully ten days behind in ripening. The crop will be a very large one.

Bank Report

The Clay City National Bank has one of their splendid reports in this issue of The Times. This report shows more than \$169,000 in deposits. This report is not made of a day of the bank's own picking, but made of a day selected by the banking department at Washington.

Insurance Man Here

The insurance people had a man here last week looking over the various buildings preparatory to putting new rates into effect. We are willing to wager a jug of buttermilk that if there is a change in rates they will be higher, and there is quite apt to be a change.

Women will be allowed full privilege to vote in the coming primary for candidates for Superintendent of Schools. They will also, of course, be permitted to vote in the final race.

A HOME-MADE PAPER.

THURSDAY, JULY 5, 1917.

In the matter of prohibiting food stuff from being made into liquor, President Wilson has interceded in behalf of the liquor people on one side and the food control interest on the other side and had the matter adjusted. There will be no whiskey made, but the brewers may continue to make beer, and the wine-makers wine.

This is good for the whiskey people in one way. It will give them an opportunity to unload an enormous over-product of years standing. It is well-known that whiskey has been limited in manufacture for several years past, and it is said that there is now enough liquor in this country to supply the demand for five years to come. This being true, the whiskey man will reap a very rich harvest by selling his already made product at twice what he would have gotten, had the Government not stopped its making. Nevertheless it is a good measure but it should have stopped also the making of beer.

We see from some of the out of State papers that a row had been in Clay City among miners in which one man was killed, three others wounded, and forty shots fired.

For the benefit of those papers the Times advises that Clay City is a very orderly and peaceful town of mostly law abiding citizens, in which a single shot is very rare.

We are proud of the record that no wounding or killing has been done here for a number of years. Must have given the wrong town the undesirable advertising.

Train your guns on, at least, a mining town when referring to miners, as Clay City is safely 40 miles from the nearest coal mines.

We make smooth the finest lumber, in Clay City; we ship cream; we farm and trade and behave ourselves, as it behooves all decent towns to do.

July 2nd the total indebtedness of the State was placed at \$4,721,802.00. A nice little sum to pay interest upon. The new tax law was designed to pay this State debt. So the State tax was lowered very materially, especially on most of the taxable property not held by farmers, upon the theory that the rich would give in more tax if the rate were lower. The Times wagers the prediction that the tax by the new law will be largely decreased, instead of increased as many pretend to believe.

What Prohibition Means.

From the noise that is made about it among the wets, one might think prohibition meant murder.

It doesn't.

It simply means more food, and that means lower food prices.

It means more efficient labor, and that means greater output, and that means lower prices again.

It means that the men who are now making beer and whiskey will begin to make the equivalent of what they consume, and that, again, means lower prices for you.

It means more car space for legitimate commodities, and that means faster handling of freight, and that means lower prices.

It means more ship tonnage to be used in transporting material for our boys in France and for our allies, and means not only lower prices for our allies, but the lives of American boys saved for America.

Incidentally, it means less crime, and that means less taxes. It means less pauperism, and that means less taxes. It means less insanity, and that means less taxes. It means less disease and death, and that means infinite myriads of things for this good old land of ours.

It Isn't Your Town---It's You!

If you want to live in the kind of a town
Like the kind of a town you like,
You needn't slip your clothes in a grip
And start on a long, long hike.
You'll only find what you left behind,
For there's nothing that's really new,
It's a knock at yourself when you knock your town:—
It isn't your town—it's you!

Real towns are made by men not afraid
Lest somebody else gets ahead;
When every one works, and nobody shirks,
You can raise a town from the dead.
And if while you make your personal stake
Your neighbors can make one, too,
Your town will be what you want to see:—
It isn't your town—it's you!

Studebaker

WAGONS BUGGIES HARNESS

AMPLE PROOF THAT IT DOES—AND IS DOING—ITS WORK

My father purchased our Studebaker before I was born. I remember having seen it 40 years ago. Just a short time ago I hauled 3,000 pounds of coal on this wagon, so you can judge it is some wagon yet, for an old one.

I use the old Studebaker every day or whenever I need a wagon.

It has always stood out in all kinds of weather up to eight or nine years ago, when I commenced keeping it under cover.

Charles Stratton,
Anderson, Ohio

Hauls 3000 pounds of coal on 40 year old Studebaker

In the 80 acre lumber yard of Studebaker at South Bend is the largest stock of wagon

material in the world—and none has been more carefully selected.

The good material isn't the whole answer—it is combined with skilled workmanship and that's why Studebaker wagons last forty years.

Studebakers build wagons today just as strong as they built them forty years ago. And the wagon that lasts longest is the cheapest wagon in the end.

There are a lot of reasons why the next wagon you buy should be a Studebaker.

We have just received a car load of Studebaker wagons, and by buying them in car load lots can save you money. We have them in the following sizes—size 3 1-4 in. with tires 1 3-4 in. wide, size 3 1-4 in. with tires 1 1-2 in. wide, size 3 in. with tires 1 3-4 in. wide, size 3 in. with tires 1 1-2 in. wide, size 2 3-4 in. with tires 1 1-2 in. wide and size 2 1-2 in. with 1 1-2 in. tires.

We invite you to call when in need of anything in merchandise. It is our aim to keep as near as is possible every thing the people call for. We handle good, up-to-date goods and at prices that will save you money. If you are interested in saving money in this way call and see what we can do for you.

Constipation is one of the main reasons why the average human life is below 40 years. Leaving waste material in the body poisons the system and blood and makes us liable to sick headaches, biliousness, nervousness and muddy skin. When you note these symptoms, try Dr. King's New Life Pills. They

give prompt relief, are mild, non-gripping in action, add tone to your system and clear the complexion. At your druggist, 25c. adv

For Tired Women

With Aching Heads

"They help me so much and I find relief as soon as I begin taking your Foley Kidney Pills," Mrs. Frank P. Wood, Morrill, Maine, R. F. D. No. 2. Sometimes it seems as if you can't stand the pain across your back. It is just making your life miserable and robbing you of all energy and strength. When you are constantly tired, head always aching, nerves "on edge," kidney action painful and burning, then is the time to start in at once on Foley Kidney Pills. They strengthen the weak, ailing kidneys, improve their action, enable them to throw off the poisons that cause your trouble. Your nerves grow peaceful, sleep becomes sounder, nervous headaches disappear. As Mrs. Wood says: "I find relief as soon as I begin to take your Foley Kidney Pills." Be sure you get the genuine Foley Kidney Pills, for they are purely medicinal and contain no harmful drugs.
